DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1, 4-18, 20-41, 45-59, 61-82, 85-100, and 102-123 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

> The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1, 4-18, 20-41, 45-59, 61-82, 85-100, and 102-123 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The independent claims, claims 1, 41, 67, and 82, have been amended to recite that the PDU is forwarded through the broadband network to an egress gateway "irrespective of routing information contained within the data stream." Examiner cannot find support for this limitation in the specification. In addition, fundamental principles of networking dictate that the information cannot be forwarded "irrespective of routing information contained within the data stream." The purpose of networking is to send information from a source to a destination. In order for the information to arrive at the correct destination, the network would have to determine the destination from the data stream and then forward the stream accordingly.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
